Honorable Dirk Kempthorne
Governor, State of Idaho
Statehouse
Boise, Id 83720

Dear Governor Kempthorne:

As Director of the Idaho Department of Insurance, I am pleased to submit to you the 100th Anniversary edition of the Department of Insurance Annual Report for the calendar year 2001, as required by Section 41-216, Idaho Code.

The statistics in this report are compiled from the December 31, 2001 annual statements filed with this Department by insurance companies licensed in Idaho. The Department continues to work to protect the rights of consumers, both individuals and businesses. At the same time we are working to fairly and firmly enforce the laws of Idaho.

I wish to commend and thank the staff of the Department for their dedication and hard work on behalf of Idaho's insurance consumers. This report tells the story of their good work which goes on in many forms each day. Thank you for your support of the Department of Insurance and the opportunity to serve the insurance consumers of Idaho.

Respectfully submitted,

Mary L. Hartung
Director

Department of Insurance Celebrates 100 Years

The Idaho Department of Insurance has announced plans to celebrate its 100th anniversary. On March 18, 1901, Governor Frank Hunt signed into law an act establishing the Office of the State Insurance Commissioner, which later became the Idaho Department of Insurance. The Department of Insurance will host a reception at its offices at 700 West State Street to commemorate its centennial on Thursday, August 23, beginning at 2:30 in the afternoon. Governor Kempthorne, members of the Idaho Legislature, and representatives of the insurance industry are scheduled to speak.

Since the establishment of the Office of State Insurance Commissioner in 1901, there have been 28 insurance commissioners or directors. The current director, Mary Hartung, was appointed by Governor Batt in 1998, reappointed by Governor Kempthorne in January 1999, and is the first woman to hold the office. The Department of Insurance oversees all aspects of the insurance industry in Idaho, including more than 1,900 insurance companies and 26,000 insurance agents doing business in this state. Last year the Department of Insurance handled 1,290 consumer inquiries and complaints and assisted in recovering more than \$3 million for Idaho insurance consumers.

A Brief Summary of the Legislation Creating the Department of Insurance

During the period Idaho was a territory, and after statehood until 1901, insurance companies doing business in Idaho were governed under a special chapter of the State's general corporations law. After Idaho became a state, it appears the Treasurer was responsible for administering these laws and was the "ex officio Insurance Commissioner." The Department has an original copy of the Annual Report of the Insurance Commissioner for the year ending April 30, 1900, filed by State Treasurer Lucius C. Rice. As of April 1900, there were 516 companies and 4,565 agents licensed in Idaho.

On March 18, 1901, House Bill 115 was signed into law by the Governor and went immediately into effect. It was titled, "An Act to Provide for an Insurance Commissioner, Defining his Duties and Regulating his Compensation, and to Regulate License Insurance in this State, and to Repeal Existing Laws in Relation Thereto." This law created the position of Insurance Commissioner to oversee the regulation of insurers in Idaho. The Insurance Commissioner was appointed by the Governor, with the advice and consent of the Senate, and served a two-year term. The requirements for the office were that the Commissioner be a citizen of Idaho and be experienced in insurance matters. The salary was fifteen hundred dollars per year with an additional "ten hundred dollars per year" to be used to hire a clerk and pay other expenses associated with the office. The law designated that the office of the Insurance Commissioner be in the State Capitol building. The law also provided that the Commissioner was to have a "seal of suitable design copied from the great seal of the State." The Director's office still has a heavy, antique-looking seal that prints "Insurance Commissioner" around a copy of the State seal. It does not have a date on it so it is unknown whether this is the original seal. The Commissioner from 1901 to 1902 was P. M. Davis.

The 1901 insurance law was entirely rewritten in 1911. The new law created an Insurance Department as a "distinct department charged with the execution of all laws in relation to insurance companies doing business in this State." It further provided for the appointment of a State Insurance Commissioner and Deputy Insurance Commissioner, and significantly expanded the Insurance Code.

In 1919 a law was passed to reorganize the "civil departments" of the State. It took effect on March 31, 1919, and created a new department called the Department of Commerce and Industry. This law abolished the Insurance Department and the offices of the Insurance Commissioner and Deputy Insurance Commissioner, and vested their powers in the newly formed Department of Commerce and Industry. This act also created the Department of Finance.

The Department of Commerce and Industry created in 1919 turned out to be short-lived. Two years later, effective March 15, 1921, a law was passed that abolished the Department of Commerce and Industry and transferred its rights, powers and duties to the Department of Finance. That bill granted to the Department of Finance and its Commissioner the power to execute the laws relating to insurance and insurance companies. After this reorganization, the Director of Insurance and the Manager of State Industrial Insurance became officers overseeing bureaus under the Finance Commissioner. This arrangement lasted for the next 36 years.

On July 7, 1947, a law went into effect recreating the Office of Commissioner of Insurance. The 1947 law transferred the insurance regulatory powers of the Commissioner of Finance and the Director of Insurance to the Commissioner of Insurance - in effect, going full circle back to the 1901 arrangement. In 1961, the insurance code was again rewritten and provided for a Department of Insurance and Commissioner of Insurance. In 1974 the Commissioner of Insurance was changed to Director.

1901 - 1911:	Insurance Commissioner created
1911 - 1919:	Department of Insurance, Insurance Commissioner and Deputy Insurance Commissioner
1919 - 1921:	Department of Commerce and Industry
1921 - 1947:	Department of Finance with Insurance Director overseeing Bureau of Insurance
1947 - 1961:	Office of Insurance Commissioner
1961 - 1974:	Department of Insurance, Commissioner of Insurance
1974 - :	Department of Insurance, Director

Summary of Legislative Changes Impacting the Department of Insurance or the Insurance Industry Enacted in 2001

Department of Insurance Legislation

HB 25. To Revise Insurers' Examination Expense. Amends existing law to strike several portions of Idaho code that are no longer necessary as a result of the Department of Insurance amending its fee rule to replace multiple filing fees with a single annual fee for insurers. Also makes technical corrections.

HB 35, as amended. Insurance Producer License. A re-write of the insurance agent, broker and consultant licensing statute. Agents and brokers will now be known as producers. This is intended to simplify and reorganize the statutory language, to improve efficiency, to establish uniform definitions and licensing requirements across state lines, to promote increased use of technology and reduce the expense of issuing and renewing licenses and to effectuate producer licensing reciprocity.

HB 186. Insurance Producer Record Keeping. A trailer bill to HB 35 to provide that certain licensed insurance producers shall make available for inspection certain records.

House Bills

HB 83. Supplemental appropriation for the Department of Insurance.

HB156. Wholesale Producers. Clarifies the legality of wholesale producers receiving fees and commissions.

HB 161. Guaranty Association. Consolidates the W/C, auto, and all other insurance into one account.

HB 201. Premium Tax. Removes the term "domestic" from certain insurers doing exclusively W/C business and insurers working exclusively with governmental agencies.

HB 233. Certain Investors, Real Estate. Specifies the maximum aggregate amount of real estate, which may be invested by a domestic reciprocal insurer comprised of and exclusively insuring members who are political subdivisions of the state.

HB 312, as amended. Long-Term Care Insurance. Adds to existing law to provide a state income tax deduction for fifty percent of the premium cost for long-term care insurance.

HB 327. Counties, Self-Funded Health Care. To exempt counties of the state from registration requirements relating to self-funded health care plans.

HCR 26. Prescription Drugs. Urging the Governor and Health and Welfare to pursue opportunities to compact with sister states to purchase prescription drugs at economic rates.

Senate Bills

SB 1127, as amended. Legal Service Plans. Defines the term "legal service expense plan" and exempts legal service expense plans from regulation as insurance; specifies code provisions applicable to legal service expense plans.

SB 1166. Maternity Insurance Discount. To provide that if an insurance policy provides benefits for pregnancy, and an employee or dependent is pregnant at the time of discontinuance of the policy and not eligible for replacement coverage within 60 days of discontinuance, the policy must provide that the benefits will be payable to the same extent if discontinuance had not occurred.

SB 1181. Appropriation for the Department of Insurance for FY 2002.

Newspaper clippings from the "Idaho Statesman" on March 18, 1901

The insurance commissioner job has been carried through. A new office has been created and a man appointed to fill it. It was all unnecessary. If the law was to be changed, it could have been done without diverting such a large portion of the additional revenue into the spoils basket. One additional clerk could have attended to all the business that will be done, and, he would have had plenty of time to sit with his feet on the desk. But there will be a commissioner and an assistant, with money for expenses in addition.

QUITE A SURPRISE

*Outiders Expected C. B. Wheeler to Be Appointed
Insurance Commissioner*

The appointment of Mr. Davis to the office of insurance commissioner came as a great surprise to most of the politicians, as it had been understood that C. B. Wheeler of Blackfoot had been slated for the place. Mr. Wheeler was one of the most active of the lieutenants of Senator Dubois, and the idea has prevailed that he was to be rewarded by a state appointment. Lately it has been believed everywhere that the position of insurance commissioner was to be given him. He interested himself in the passage of the measure, and those having knowledge of his activity understood that the plum was to fall to him. It is also said that Mr. Wheeler fully expected to be appointed.

Health Insurance Reform/Access Issues

Small Employer Health Insurance Availability Act

In 1991 the Legislature passed House Concurrent Resolution No. 23 (HCR 23), which directed the Department of Insurance to act as administrative support and resource on insurance matters to a Health Care Task Force. This resolution directed the HCR 23 group to study the problem of the uninsured and underinsured in Idaho and to make recommendations to the legislature.

In 1992 the HCR 23 Health Care Task Force entered its second year of study. The Task Force was directed to define access priorities and create action plans for addressing the problem of approximately 160,000 of our citizens who made up the uninsured population in Idaho. The task force was assigned the responsibility of determining pricing levels and selecting plan designs for health services to be offered in Idaho. They were directed to develop a small employer plan and to further recommend actions that would address health care coverage for the remaining uninsured and those who could not afford coverage.

Senate Bill 1039, as it pertained to the Small Employer Health Insurance Availability Act, was passed by the legislature and signed by the Governor in 1993. As a result of this legislation, every small employer carrier was required to actively offer coverage to small employers. Based on the requirements of the Act, small employer carriers would either assume the full risk of covering high risk individuals on their own, or they could elect to participate in a voluntary reinsurance program that would permit the carriers to reinsure those high risks.

Any losses to the Small Employer Reinsurance Pool would be spread across carriers writing disability business in Idaho. This Act did significantly change the way group health insurance was sold to small employers. Under the requirements of the Act, there is a guaranteed issue provision which assured that any insurer in the small employer health insurance market would agree to provide the coverage to any small employer who applied as long as minimum participation levels were met. Standards to Assure Fair Marketing require carriers to actively market health benefit plan coverage. Based on these standards, carriers and agents shall never directly or indirectly encourage employer groups or individuals to refrain from filing an application for coverage based on health status, claims experience, age or gender. Any denial of coverage must be in writing and must state the specific reason for such denial. Other provisions of the Act included guaranteed renewal, portability and defined rating restrictions.

Individual Health Insurance Availability Act

Effective July 1, 1994, Idaho began to develop the requirements for the implementation of the Idaho Individual Health Insurance Availability Act. The purpose and intent of this Act was to promote the availability of health insurance coverage to persons not covered by employment-based insurance regardless of their health status or claims experience, prevent abusive rating practices, and fair disclosure of all rating requirements as well as established rules regarding renewability of coverage and placed limitations on the use of preexisting condition exclusions.

Based on the Act, amendments were required within the Plan of Operation for the Idaho Small Employer Health Reinsurance Program which would allow for individual carrier reinsurance. Additionally, a Benefit Plan Committee met to develop the required guarantee issue Basic and Standard Plans and plan designs were submitted for actuarial review for the development of reinsurance rates. Individual carriers were required to begin offering guaranteed issue products on January 1, 1995.

Idaho Individual High Risk Reinsurance Pool

The Idaho Legislature created the Idaho Individual High Risk Reinsurance Pool to provide access to health insurance coverage for eligible residents of Idaho which also served as an acceptable alternative mechanism for complying with the federal Health Insurance Portability and Accountability Act (HIPAA).

Throughout 2001 the pool enrollment ranged from 108 to 965. By mid-2002 this enrollment had grown to 1,197 in force lives. During this time period 98% of the incurred claims were funded by premiums collected from individual carriers. The claims were further funded by public funds directed to the Individual High Risk Pool by the Idaho Legislature. Based on the current experience of the High Risk Pool, no assessments for losses to the program will be required for calendar year 2001.

Participants must:

- be a resident of the state
- not be eligible for Parts A and B of Medicare, and not be eligible for Medicaid,
- not be eligible for coverage under a group health plan
- have received a notice of rejection of coverage for substantially similar health insurance, or
- have received a notice that the rate for in-force or applied-for health insurance will exceed the rate for pool plans.

This Individual High Risk Reinsurance Pool and the Small Employer Reinsurance Pool are under the direction of a Board of Directors. This Board consists of four members that represent carriers, two agent members, two that represent consumer interests, the Director of the Department of Insurance and a representative from the State Senate and the House of Representatives.

***Excerpts from 1919-1920 Biennial Report to Gov. D.W. Davis by Howard Brace,
Insurance Commissioner:***

The years 1918 and 1919 were, in our opinion, the most critical in the history of the life insurance companies of the country. The institution of life insurance was for a time in actual danger due to the ravages of the influenza-pneumonia epidemic. Sufficient time has now elapsed for us to say that all of the companies doing business in the state have emerged from those extraordinary conditions and are conducting their business safely and soundly. The reports filed with the department covering the year 1919 show that to have been the greatest year ever experienced in life insurance writing. We estimate that 1920 will show an increase over that record.

Support Services

The Support Services Bureau was established to efficiently consolidate the common services of the Department. The Bureau consists of four sections: Fiscal, Information Technology, Personnel and Purchasing/Facilities. This consolidation allows the other Bureaus/Divisions to focus on delivering their services to Idaho's citizens and the Insurance industry.

The Fiscal Section is responsible for employee payroll and the related time and attendance records, accounts payable and vendor record keeping (matching invoices and goods/services received), the department mailroom and related accounts receivable in accordance with Idaho Code, the annual budget request with all supporting documentation, developing dedicated revenue forecasts by revenue center, processing cash receipts and disbursements and managing cash flows and overseeing budget management. This section is responsible for all financial record keeping utilizing the Controller's STARS system, the month-end and year-end accounting entries, all funds transfers and responding to requests for financial information and developing records to account for all state property in the Department's care and assure its safekeeping.

The Information Technology Section provides the technology infrastructure, business applications and technology training and support that is necessary for the Department to fulfill its regulatory role and to provide the efficiency offsets to an ever-increasing workload. IT ensures that authorized information is available to the Department employees, the public and industry. The section must constantly be aware of technological changes and be able to react to the needs of the Department staff and their requirements to support a technologically sophisticated industry/public for access to the Department and its information database.

The Human Resources Section provides resources to recruit and retain employees in a proactive manner, assists in proactively helping staff address wellness issues and maximizing their benefits, maintains personnel records and policies plus assists staff in obtaining relevant training and assures that the Department is in compliance with all governing laws, regulations and policies regarding employment issues.

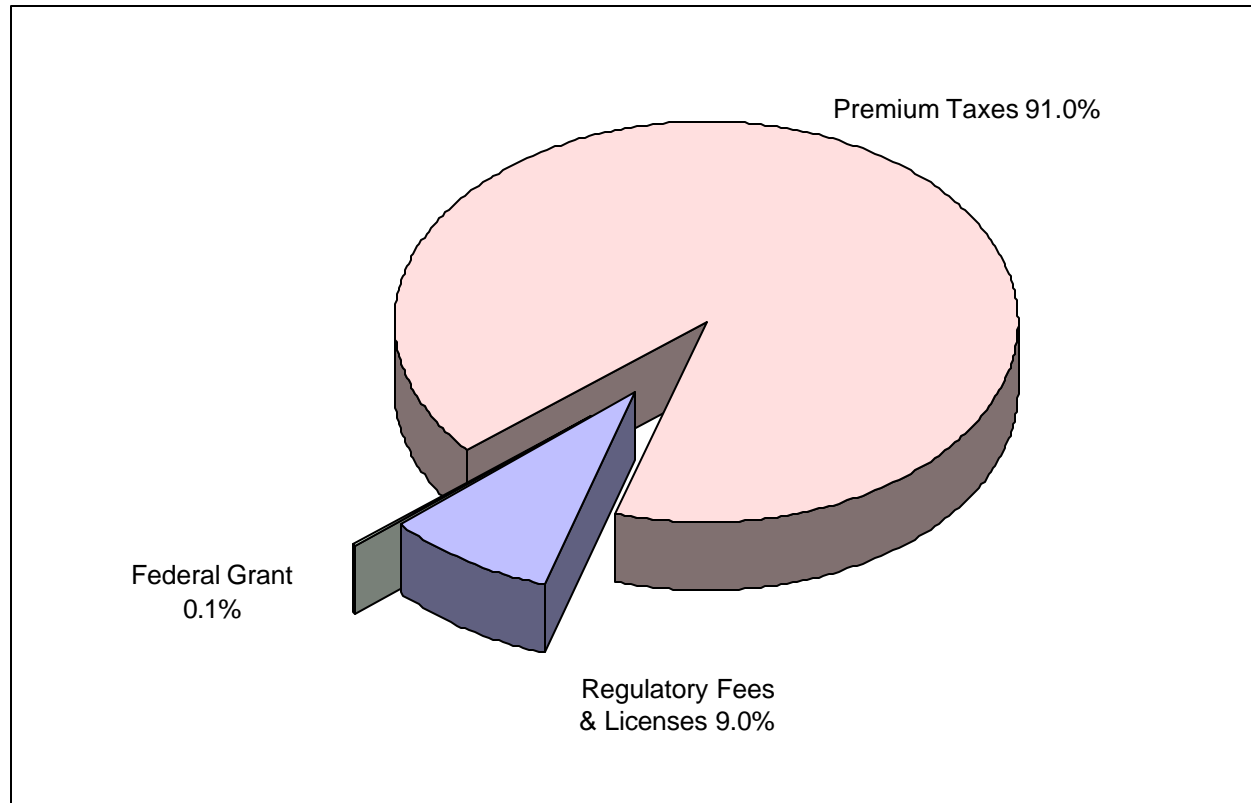

The Purchasing/Facilities Section provides assistance in the acquisition of materials and services needed to accomplish program goals and assures that procurement is done in compliance with governing laws, regulations and policies. In addition, the Section provides for the maintenance of our facilities (both local and remote), assures that the work environment for our employees is properly maintained and that the Department's phone system is operating both effectively and efficiently.

Excerpts from the First Biennial Report of Department of Insurance to Gov. Frank Hunt by P.M. Davis, first Idaho Insurance Commissioner (1901-1902):

...I congratulate you on the great financial result of the creation of the Department [of Insurance]. By reference to data herewith you will note that total amount received from all sources in the past two years is \$44,282.75, and disbursements for the same period \$4,469.45, leaving a net income for the State of \$39,813.30.

Department Fund Sources*

For the Fiscal Year Ended June 30, 2002

Premium Taxes	\$ 66,057,600
Regulatory Fees & Licenses	6,539,500
Federal Grant	160,400
Total	<u>\$ 72,757,500</u>

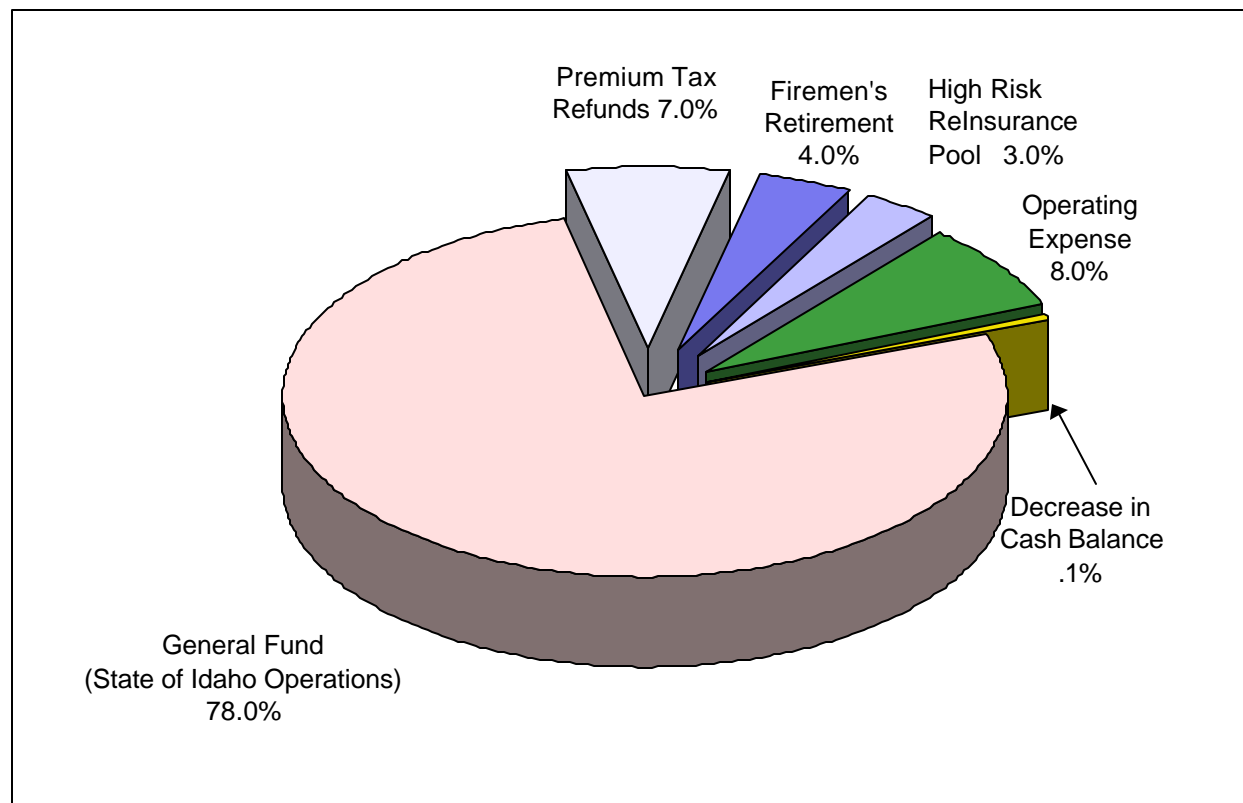

Department receipts totaled over \$72 million in FY 02. Taxes on insurance premiums constituted the largest portion (91.0%) of these receipts, amounting to \$66.0 million. Regulatory fees and licenses of \$6.5 million and federal grant funds of \$160,400 accounted for the remainder of the FY 02 receipts. Although premium taxes represent the department's largest single source of receipts, these dollars are not utilized to finance department operations. The majority of premium tax proceeds are distributed to the General Fund to finance other State programs. The balance of the premium tax proceeds are distributed to the Premium Tax Refund Fund, the Firemen's Retirement Program and the High Risk Reinsurance Pool

*Includes the following funds: Insurance Administrative; Arson, Fire, and Fraud Prevention; and Federal Grant.

Department Fund Applications

For the Fiscal Year Ended June 30, 2002

General Fund	\$ 56,738,300
Premium Tax Refunds	5,272,700
Firemen's Retirement (PERSI)	3,150,100
High Risk ReInsurance Pool	2,388,800
Department Operating Expenses	5,660,200
Decrease in Cash Balance*	(452,600)
Total	\$ <u>72,757,500</u>

In FY 02, distributions to the General Fund totaled more than \$56.7 million, while distributions to the Premium Tax Refund, Firemen's Retirement Program and High Risk ReInsurance Pool were \$5.2 million, \$3.1 million and \$2.3 million, respectively. The department's operations are funded by regulatory fees, licenses and other miscellaneous revenue sources. In FY 02, the department expended \$5.6 million, or 8.0% of its total receipts, to fund department program operations.

* Combined cash decrease for the Insurance Administrative Fund; Fire and Fraud Fund; and the Federal Grant Fund.

Program Performance Report Department of Insurance

Program Results and Effects:

The department continues to develop a single person analyst approach to financial/regulatory monitoring which we believe enhances departmental responsiveness by maintaining a higher level of ongoing knowledge of company condition and reducing dependence on dated information received from periodic financial examinations.

The Department approved additional lines of business authority for 18 companies who wanted to expand their writing authority in Idaho. Of the 18 approved, 17 were done within 90 days and 9 of the 18 were approved within 30 days. The Department gave financial approval to all 18 within 60 days, with 16 of those approvals being given within 30 days. The Department began the fiscal year with 4 applications pending and ended the fiscal year with no pending applications.

We now utilize the NAIC Uniform Certificate of Authority Application and we share the standard goal of processing Primary Applications within 90 days of receipt and Expansion and Corporate Amendments Applications within 60 days of receipt. Many of the applications are reviewed and approved or disapproved within 30 days.

The Department's premium tax section had gross collections for the fiscal year of over \$66 million. Of this amount, approximately \$3 million was distributed to the Firemen's Retirement, \$5 million to the Refund Account and \$2.4 million to the High Risk Reinsurance Pool. The remaining \$55 million transferred to the General Fund was 5% greater than projected.

After 5 consecutive years of unparalleled growth, the number of new insurance producers has leveled off. The producer licensing section currently maintains licensing records for some 30,000 producers. Passage of the NAIC Producer Licensing Law has made licensing from state to state easier and less complicated. This licensing uniformity has had a dramatic effect on the licensing process making it less confusing and consequently has decreased duplicate handling of applications due to applicant error.

The signing of the NAIC Continuing Education Reciprocity Agreement has reduced the number of continuing education courses that have to be reviewed by our Continuing Education Committee and have had a positive effect on the number of courses being approved each month.

Introduction of electronic license renewal, the electronic application process, and electronic fingerprinting in the near future, should have a dramatic effect on the licensing workload.

Insurance fraud in the United States and in Idaho continues to cost the insurance-buying public in terms of higher premiums. The aggressive pursuit to curb the increase of this type of crime is one of the objectives of our investigative section. This objective is being accomplished through cooperative investigative efforts with the industry and local law enforcement bureaus and through public education.

For more information contact Mary Hartung at 334-4250.

Department of Insurance - State Fire Marshal

Program Results and Effects:

The State Fire Marshal's ability to adopt new codes and train local officials in their use will reduce the losses citizens are subject to from fire. Providing limited manpower to assist local authorities with inspections and plans review aids small communities with volunteer or limited paid departments that are unable to complete these tasks. In addition to the mandated review of plans for all state owned or maintained buildings, this office assists local authorities with these tasks when requested. The collection and tabulation of fire data are vital in establishing trends and code to identify deficiencies. The investigations of fires and the prosecution of arson cases in small communities serve as deterrents. All fire investigations are done at the request of local authorities.

For more information contact Mark Larson, State Fire Marshal, at 334-4370.

Excerpts from 1905-1906 Biennial Report to Gov. Frank Gooding by Edward Ligget, Insurance Commissioners:

...On the 18th day of April, 1906, the people of San Francisco awoke to such a scene of desolation and ruin as has never before been witnessed in this country. The fire that followed the earthquake raged for three days and nights finally burning itself out, but not until it had covered an area of nearly five square miles and destroyed 25,000 buildings. It has been estimated that the actual property loss chargeable to the two elements of destruction in San Francisco [earthquake and fire] was as large as that of all the other great disasters which have occurred in the United States combined, involving as it did a waste of over \$300,000,000.

... Resulting from the Chicago fire, sixty companies went out of business; after the Boston fire, thirty-two retired; after the Baltimore fire six, and although the loss at San Francisco was far greater than all the others combined, up to the present time only three companies have gone into the hands of a receiver, and less than a dozen have retired from business.

Information Technology

The Idaho Department of Insurance achieved several significant milestones during 2001 in the use of technology to meet the business goals of the department. The Department's website was redesigned to provide industry and consumers better access to information concerning insurance-related issues. We implemented an Agent and Company License Inquiry application which allows industry and consumer interests to view detailed license information, agent and company appointments and the lines of business each are licensed to sell. We greatly expanded the amount of information available to consumers on Life and Health Insurance and Senior Health Insurance information.

The Department developed and implemented the Producer Data Base (PDB) application to electronically transmit licensing data to the National Association of Insurance Commissioners (NAIC). The PDB is an electronic database consisting of information relating to insurance agents and brokers (producers). The PDB links participating state regulatory licensing systems into one common system establishing a repository of producer information. The PDB will also access other information sources such as the National Association of Securities Dealers (NASD), the Regulatory Information Retrieval System (RIRS) and others. The PDB will also send an electronic notification to state users if administrative action is taken against a licensed producer in their state or if a producer no longer holds an active resident license. The key benefits of PDB are:

- immediate access to detailed disciplinary history;
- immediate electronic notification of administrative action; and
- verify licensure and good standing in all participating states

The following information is maintained in the database and is updated daily by participating state insurance departments:

- general demographic information relating to all producers such as name, Social Security number, address(es) and phone number(s);
- license information such as states licensed, license numbers, authorized lines, license status and CE compliance indicator;
- appointment information such as company appointments, effective date, termination date and termination reason; and
- company appointment/termination information

The Department also developed an application to support the electronic transmission of a) appointments and terminations, b) notification that the state received the appointment/termination and c) confirmation that the state either accepted or rejected the appointment. This application has greatly reduced the number of paper appointment transactions that must be processed manually by in-house staff.

The Department has also developed an application for filing an initial consumer complaint via the website. This application is expected to reduce the number of telephone and mail complaints and requests for assistance by enabling consumers to access these services through our website. In 1998 the NAIC adopted Uniform Regulation Through Technology (URTT), a resolution encouraging all states to leverage technology to achieve uniform regulation throughout the nation. In November 2001, Idaho became one of 25 states to complete all twelve initiatives outlined in the resolution. (URTT) is a collection of technology projects that represent a significant strategic investment in the use of automation for regulatory purposes. These technology initiatives dramatically enhance communication and the interaction between the nation's insurers and its insurance regulators in the areas of:

- agent and broker licensing and continuing education;
- licensing process for foreign insurers;

- filing and approval process for rates and policy forms; and
- reporting of financial data used by insurance regulators

The goals of URTT are to:

- provide states with new regulatory tools to enhance their ability to regulate a \$900 billion insurance industry;
- reduce multi-state licensing and approval barriers;
- increase the uniformity and consistency of processing and regulation across state boundaries; and
- leverage state and NAIC technology to achieve economies of scale through automation initiatives.

Twelve separate initiatives comprise the foundation for URTT. These initiatives leverage the technology and resources of the states to bring greater efficiencies and economies that position state insurance regulators to be able to effectively and efficiently regulate an industry that is becoming more multi-state or even multi-national in scope. These technology initiatives allow a regulatory scheme that has flourished for more than a century to grow and adjust to changing times. Thus, one of the advantages of state regulation, the ability of states to react to local conditions and concerns, is preserved. At the same time, unnecessary burdens to insurers that do not add value to consumers can be identified and eliminated.

The Department of Insurance is committed to continuing to leverage technology to provide efficient, timely and cost-effective services to the insurance industry and consumers using all technological resources available to accomplish this goal.

Excerpts from 1906-1907 Biennial Report to Gov. Frank Gooding by C.D. Goaslind, Insurance Commissioner:

... In conclusion would state that there is held yearly in some city within the United States a National Convention of Insurance Commissioners. The mutual acquaintance of the officials, the interchange of opinions on important subjects continually arising, the consideration of statutory enactments pertaining to the business of insurance, the discussion of new issues and the many important questions which the development of the insurance brings up, all conduce to a more efficient standard of official supervision and greater uniformity in the rulings of Departments. I have been urged to attend these meetings but for the reason that our appropriation would not permit such an expenditure have been unable to avail myself of the privilege of being in attendance. At the 1906 Convention of Insurance Commissioners a resolution was adopted providing that each State not represented, as well as those represented at the Convention, should be assessed their pro rata share of the necessary expenses of said conventions. In conformity with this resolution this Department has been assessed and a statement rendered amounting to \$35.00 for the year 1906 and \$40.00 for the year 1907 as our pro rata share of the expenses of the conventions. These assessments have thus far remained unpaid, although it was the sense of the Convention and in which I concur, that we, as well as all other Departments, are indirectly benefited by the proceedings of these conventions.

Idaho State Historical Society, 76-138.18

The first office of the Department of Insurance was in the Territorial Capitol building which was completed in 1886. The Territorial Capitol was razed in 1919 for construction of the east wing of the new State Capitol.

Consumer Services

The Bureau of Consumer Services is divided into four sections: Consumer Affairs, Senior Health Insurance Benefits Advisors (SHIBA), Investigations and Agent Licensing. The Bureau's primary function is to efficiently and effectively administer the Idaho Code by licensing insurance producers, providing educational opportunities to the public and insurance producers and to investigate violations of the Insurance Code in the market place.

The Consumer Affairs section is generally the Department's primary contact with the public. Through the complaint process the public has an opportunity to submit their grievances, and the Consumer Services section then investigates the allegations. If the investigation shows that wrongdoing has occurred, the Department will intervene on behalf of the consumer and will then try to rectify the problem through negotiations or through the administrative legal process. The Consumer Affairs Section recovered over \$2 million for consumers in 2001. During this year they handled over 1,500 complaints and of which 35 were referred for administrative or legal action.

Through the efforts of over 400 trained SHIBA volunteers, services are provided to seniors throughout the state. The SHIBA section counsels and assists the senior population regarding Medicare, Medicaid, and Medicare supplement insurance coverage, as well as long-term care insurance coverage. The volunteers assist seniors by answering their questions, reviewing their claims and referring them to the proper resource when further assistance is required. The SHIBA program recovered approximately \$500,000 for Medicare beneficiaries in 2001.

The Investigation Section works closely with both consumers and the insurance companies in response to allegations of agent misconduct or insurance fraud. This section attempts to collect sufficient evidence and documentation to build a case that may be submitted to the Department legal staff for administrative action, or if the case warrants, to the Attorney General's office or county prosecutors for criminal or civil action. This section also educates the public about insurance fraud and what it costs. The Investigation Section submitted 45 cases for administrative action or criminal prosecution in 2001 and recovered or prevented the loss of over \$900,000 in bogus claims.

The Producer Licensing Section processes and reviews license applications, examines qualifications of applicants and issues and renews licenses for over 30,000 producers, both residents and non-residents. The section also oversees the Producers Continuing Education Program and monitors compliance with the continuing education requirements.

These sections of the Consumer Services Bureau work together to protect the public's interest and to make sure all participants - companies, producers and consumers - are in compliance with the laws and rules that regulate the insurance business in Idaho.

Excerpts from the First Biennial Report of Department of Insurance to Gov. Frank Hunt by P.M. Davis, first Idaho Insurance Commissioner (1901-1902):

... At present this Department is not aware of any so-called "wildcats" doing business in this State or attempting it. In the earlier part of the existence of this Department several attempts were made on the part of this class of companies to do business in the State, but, owing to the vigilance and assistance of agents of authorized companies throughout the State, who kept this office advised of any such attempts, they have been driven from the State. The Department has not been under the necessity of prosecuting any violators of the Insurance laws, as the offending party, as soon as advised of the law and threatened with its penalties, desisted from further violations....

Producer Licensing

In this 100th anniversary year of the Department of Insurance, the Licensing Section has active licensees totaling over 30,000 insurance producers. Contrast this with the number of licensees listed in the first annual report of 1900 showing 4,565 agents licensed in Idaho.

In the past seven years the Department has seen amazing growth in the number of producers, increasing from 13,000 producers in 1994 to the present number of 30,000. In spite of this growth, the Licensing Section has been able to increase their turn-around time in the licensing application process from a week to less than 3 days.

This improvement in efficiency and our ability to keep up with the growth have been the result of changes to the licensing laws, rules and procedures, as well as the introduction and fine tuning of a new computer-based licensing system. The commitment of the staff of the Licensing Section and the Information Technology Section has made all these changes happen and they have worked from the introduction of the new system through the upgrades and improvements to this system.

Even though Idaho has experienced unparalleled growth in the last ten years, most of the growth in licensed insurance producers has been in non-resident licensees. Growth in the insurance telemarketing industry and selling insurance over the Internet have had a major influence on new individuals and companies seeking licenses in Idaho. In addition, the banking industry has become a major insurance producer throughout the country, and this has been a contributing factor to growth.

We have reached 100 years, and we are now reaching beyond by planning new, exciting changes to our on-line capability. By the middle of this decade we expect to have virtually every aspect of the licensing process available through the Internet. We are also striving to bring our laws, rules and procedures into a new uniformity with other states' departments of insurance. These changes will make the licensing process simpler and will allow this Department to focus more resources on effective regulation of the insurance industry.

Continuing Education

On July 1, 1988, the Continuing Education Rule (IDAPA 18.01.53) became effective. The rule required that all resident agents obtain 40 credit hours within the agent's two-year licensing span. The Continuing Advisory Committee reviewed and approved the first submitted continuing education applications in December 1987.

Effective July 1, 2000 a change to Rule 53 provided that new resident agents obtain 40 credit hours of continuing education until after their third renewal date. Starting with their fourth two-year renewal span, the continuing education requirement is 12 credit hours for each line of insurance carried but never more than 40 credit hours for all four lines. The lines of insurance requiring continuing education are life, health, property and casualty.

Highlights for Year 2001

◆ Applications for licenses issued	8,223
◆ Licenses issued	9,588
◆ Total active licenses at year end	30,127
◆ Company appointments issued	30,731
◆ Company appointments terminated	17,462
◆ CE applications submitted	1,821
◆ CE applications approved	1,830

Consumer Affairs

Consumer Affairs assists Idahoans in a number of ways, including analyzing consumer, company and producer complaints and problems relating to all facets of the insurance industry to determine if a violation of Idaho Code or contract provisions has occurred; providing assistance for consumers, companies, producers and legal representatives in the form of technical assistance on claims procedures, underwriting, insurance laws and rules; reviewing insurance contracts, policies and related documents to assure compliance with Idaho Insurance laws and rules; conducting investigations concerning alleged violations of insurance laws and rules, evaluating the merit of the complaint/inquiry and recommending a course of action to the Department staff and providing technical expertise for the market conduct examination of domestic and foreign insurers by providing market conduct support in the field as well as from the Department offices.

Consumers can contact a consumer affairs officer by telephone, toll-free helpline, mail, fax, the internet or can visit any one of the Department's offices around the state in Boise, Coeur d'Alene and Pocatello. See page 3 for detailed information.

Highlights

for Year 2001

♦ Written complaints received from consumers	1,651
♦ Written complaints closed	1,500
♦ Walk-in inquiries from consumers	353
♦ Telephone inquiries from consumers	12,246
♦ Funds recovered for the public	\$2,389,809

***Excerpts from 1913-1914 Biennial Report to Gov. James Hawley by
E.F. Van Valkenburg, Insurance Commissioner***

... Policy holders who may have difficulty in effecting settlement of claims against companies are advised to first take the matter up with the Insurance Department, instead of resorting to legal measures. In many instances a satisfactory adjustment can be made, and there is no necessity whatever for bringing suit against the company. The Department stands ready at all times to assist policy holders with grievances. Scarcely a week passes but that some complaint is made, and in a majority of these cases no trouble is experienced in securing a proper adjustment of the difficulty....

SHIBA Program

(Senior Health Insurance Benefits Advisors)

The Senior Health Insurance Benefits Advisors (SHIBA) Program is a free information, counseling and assistance program for Medicare beneficiaries who have questions or problems about health insurance issues such as Medicare, Medicare supplement insurance, Medicare Health Plans and long-term care insurance.

During 2001 SHIBA staff, advocates and volunteer counselors focused on educating Medicare beneficiaries and senior service providers about rights and protections for people with Medicare, Medicare program updates, coordination of benefits, understanding Medigap, Medicare Health Plan options and long-term care issues. Through statewide presentations and disseminating information at senior centers and to service providers and various community groups, attendance at conferences and health fairs and one-on-one counseling sessions, SHIBA assisted thousands of Medicare beneficiaries.

Emerging issues impacting Medicare consumers include the new private fee-for-service plan, how to pay for prescription drug coverage and ongoing changes to the Medicare program. SHIBA staff continues to reach out to people with Medicare and their caregivers on these important healthcare issues.

Highlights

for Year 2001

♦ Volunteer counseling hours	1,925
♦ One-on-one contacts in person	16,910
♦ People reached through community, educational and media presentations	266,195
♦ Calls for the year	20,385
♦ Savings to Medicare beneficiaries	\$487,763

Excerpts from 1908-1909 Biennial Report to Gov. James Brady by C.D. Goasland, Insurance Commissioner:

...Uniform laws, if adopted by the various states, would reduce the perplexities of state [insurance] supervision to the minimum.

...A bill was introduced at the last session of Congress, recommending that a Commission be created to prepare a code of laws for the regulation and control of insurance companies doing business within the District of Columbia.... The purpose of this bill is to create the enactment of a code of insurance laws that could be taken as a model by the several states and thus promote uniformity in such laws. The commissioners and superintendents of insurance of the several states and territories have sought to promote this end but their efforts in all cases have not been successful. Realizing that it will take years to effect uniformity in insurance laws throughout the various states, I believe, in the interim that certain corrective measures should be enacted and, am, therefore, drafting a new code and recommend its passage at this session of the Legislature.

Investigation and Insurance Fraud

The mission of the Investigations Unit is two fold. First, to protect Idaho's Insurance Consumers from dishonest individuals conducting the business of insurance and, secondly, to investigate allegations of individuals filing fraudulent insurance claims against insurance companies.

Whatever its form, insurance fraud is a crime that impacts everyone by increasing the cost of insurance premiums and related goods and services. When allowed to go unchecked it has been demonstrated that insurance fraud has had a severe negative effect on the economy as a whole.

The unit conducts criminal and administrative investigations throughout the state and in doing so works closely with the public, insurance industry and law enforcement. The Investigations Unit not only investigates and refers cases for criminal and administrative legal action, but also serves as an education resource to the insurance industry and law enforcement in preventing and recognizing insurance fraud. The public has also been educated on the dangers of insurance fraud through media presentations and the distribution of brochures and pamphlets.

Highlights for Year 2001

♦ Opened cases	278
♦ Closed cases	292
♦ Referred cases for criminal and administrative action	45
♦ Criminal and administrative convictions obtained	34
♦ Fiscal impact of cases handled	\$6.2 million

Excerpts from 1913-1914 Biennial Report to Governor James Hawley by E.F. Van Valkenburg, Insurance Commissioner:

... It is gratifying to be able to state that the relations between this Department and the various insurance organizations now transacting business in the State, have been most agreeable and satisfactory. With few exceptions the companies have manifested a desire to conform strictly with our laws and requirements, and to pay all just claims promptly. No effort has been made by irresponsible companies to enter the State, as they realize that the Department's strict supervision would preclude the possibility of their being licensed. The insurance protection carried by our people is as sound and reliable as it is possible to have it.

It is also worthy of note that the Department has had the hearty co-operation of the companies' agents and representatives in keeping the insurance business on a high plane by weeding out undesirable, irresponsible agents. The personnel of the various agency forces in Idaho is of a very high order, and comparatively few instances have occurred where agents have been dishonest in their dealings.

Idaho State Historical Society, 60-52.204

Construction of the new State Capitol began in 1905 and was completed in 1912. Construction on the wings began in 1919 and was completed in 1920. The Central School Building was demolished to make way for the west wing and the Territorial Capitol Building was razed for construction of the east wing.

Idaho State Historical Society, 187-47

State Fire Marshal

Celebrating 100 Years

Mission Statement

The State Fire Marshal's Office participates in and coordinates an integrated statewide system designed to protect human life from fire and explosions through fire prevention and the investigation of fires. The program involves fire prevention activities, arson investigations and the operation of various statistical systems, including the Idaho Fire Incident Reporting System (IFIRS).

In 1982 the Fire Marshal Division opened its doors as part of the Department of Insurance. The mission of the Fire Marshal, as stated above, has remained steadfast for 19 years. As the Department celebrates its 100th anniversary, the Office of the State Fire Marshal looks to its 20th year of serving the State of Idaho.

The staff of the Office of the State Fire Marshal works with fire departments across the State of Idaho. They provide assistance with Fire Code interpretation, application and enforcement. They also do plan review for fire and life safety issues for all State owned or maintained buildings. If requested, local fire departments can receive assistance with plan reviews for local building projects.

The State Fire Marshal has the statutory responsibility of being the chief arson investigative officer for the State of Idaho. He and his six deputies work with local authorities, when requested, on the investigation of fires and explosions all across Idaho.

The Fire Marshal's Office maintains a record-keeping system that includes data submitted from fire agencies that cover approximately 90% of the population of Idaho. They are committed to FIGHTING FIRE WITH FACTS.

Highlights for Year 2001

♦ Total fires reported in Idaho	5,936
♦ Number of residential fires	1,582
♦ Total estimated dollar loss reported	\$30 million
♦ Civilian deaths reported	13
♦ Firefighter fatalities	0

Idaho Code 41-254 requires that the State Fire Marshal make an annual report to the Governor and the Legislature by the 15th of July each year. The detailed annual report can be found by going to the Department of Insurance website (www.doi.state.id.us) and clicking on the icon for the State Fire Marshal.

Excerpts from 1908-1909 Biennial Report to Gov. James Brady by C.D. Goaslind, Insurance Commissioner:

At the recent convention of Insurance Commissioners held at Asheville, N.C., a bill was drafted and adopted providing for the appointment by the various states of a fire marshal. Many of the states already have such an official, whose duties pertain to the prevention of fires. The convention's purpose in drafting the bill was to get a uniform measure containing features that practical experience had shown to be effective in reducing fire losses.

I have no hesitancy in saying that I consider the office of fire marshal a most important one, and there is no doubt that the creation of such a department, with suitable provisions regarding its conduct, would prove of great value in Idaho. However, it should be remembered that we have a very small, widely scattered population. Many places are difficult of access, and the immense size of the State would necessitate the expenditure of a large sum of money yearly if the work of fire prevention was to be prosecuted in an efficient and intelligent manner so that good results could be obtained. It would require the services of a chief marshal and at least two deputies, besides a considerable office force. I do not think our people would care to incur this large expense in addition to the burden now imposed upon them by reason of our having a form of government as complete and intricate as in many other states having a far greater population, and I am therefore of the opinion that it would be well to defer taking any action along this line at present.

Company Activities

The Company Activities Bureau consists of three sections: Examinations, Premium Tax and Rates and Forms. Although each section has a separate function, all work in close association on some issues.

Examinations

The Examinations Section monitors the financial condition of all insurance entities conducting business in the state of Idaho to assure that each complies with Idaho law and that the financial obligations of the company to its policyholders will be met. Regulated insurance entities include domestic and foreign stock and mutual insurers, fraternal benefit societies, managed care organizations (MCOs), self-funded health care plans, risk retention and purchasing groups, and rating organizations. Additionally, Examinations includes a Senior Financial Examiner who regulates the title industry in Idaho.

Major functions of this section include:

- Initial licensing or authorization of insurers to transact business in the state via the granting of a certificate of authority. The admission process is completed in an effective and timely manner in order to admit financially sound insurers and other related entities that will offer quality insurance products and services to Idaho residents.
- Financial analysis and review of company financial reports to determine the company's compliance with all Idaho Code requirements, financial solvency and ability to meet its contractual obligations to policyholders. This area reviews annual statements, quarterly statements, audited financial statements and other filings made by an insurer. The section focuses primarily on the solvency of Idaho domestic insurers but also monitors foreign companies licensed in Idaho and performs reviews of foreign companies on an as-needed basis.
- Examination of the financial and market conduct condition of Idaho domestic insurers to ensure that they are operating in accordance with Idaho insurance laws and rules and the Statutory Accounting Practices and Procedures Manual. Examinations are prescribed by law to be conducted at least every five years, but may be undertaken more frequently if the director deems necessary.
- Regulation of all aspects of title agencies operating in Idaho. This includes title agent licensing, contract examiner oversight, routine examinations of title agent operations and title plants, review of 3-year escrow audits, handling consumer and industry complaints, enforcing compliance with Idaho Code and IDAPA rules, reviewing escrow rate filings and reviewing insurer title insurance rates and forms, as required.

Premium Tax

Premium taxes are collected by the Department of Insurance and deposited in the Insurance Administrative Fund to be distributed as follows: up to 20% to the refund account; a portion, based on a predetermined factor, to the firemen's retirement account; that portion (not to exceed \$200,000 in any one year) necessary to cover administrative costs incurred by the Department in placing insurance companies into receivership or under administrative supervision to the extent that such costs cannot be satisfied from the assets of the companies; and the balance to the general fund [Idaho Code, Section 41-406]. Premium taxes collected from authorized insurers are in lieu of all other state and local taxes payable in the State of Idaho with the exception of real property tax [Idaho Code, Section 41-405].

Premium tax offsets are allowed to the extent of 100% of the premium tax liability, unless otherwise indicated.

Domestic Examination Expense - A premium tax offset is allowed to domestic insurers for any expense paid to an examiner, actuary or other designated assistant. This offset is allowed in any of the five years following the year of payment [Idaho Code, Section 41-228(3)].

Worker's Compensation Offset - All worker's compensation insurers must pay a 2.5% premium tax on all business written to the Idaho Industrial Commission [Idaho Code, Section 72-523]. Insurers are allowed to offset 1.3% of this tax against the worker's compensation tax liability to the Department of Insurance (Idaho Code, Section 72-523). The offset cannot be allowed against any other lines of insurance.

Idaho Life & Health Guaranty Association Offset - A premium tax offset is allowed for all Class B and Class C assessments. Insurers may take any portion of the assessment as an offset in any of the five years following the year the assessment is paid. Effective 1-1-94, offsets are limited to **20%** of each assessment paid after this date. An allowable offset, or portion thereof, not used in any calendar year cannot be carried over or back to any other year. The total offsets cannot exceed the tax liability or total assessment paid [Idaho Code, Section 41-4314(1)].

The annual premium tax liability is based on calendar year premiums written. Premium taxes are prepaid in quarterly installments based on prior year's premiums and current year's tax rates. The installments are as follows: 60% due June 15, 20% due September 15, and 15% due December 15. The reconciliation payment is made on March 1 of the next year [Idaho Code, Section 41-402(3)].

Excerpts from 1911-1912 Biennial Report to Gov. James Hawley by I.C. Hattabaugh, Insurance Commissioner:

Entirely too many people consider the chief function of the Insurance Department the collection of taxes and fees, and rate its importance to the State by the volume of its receipts.

There is no Department in the State that calls more for good judgment, careful and conscientious consideration, and an unbiased attitude on the part of its officials than does the Insurance Department....

...The position calls, therefore, for ability and its administration should only be confided to those experienced in its more important branches and whose sympathy shall lie toward that high plane which all reputable companies endeavor to maintain and without which insurance companies and insurance supervision cannot make for the full measure of beneficence.

Summary of Premium Tax Collection
Calendar Years 1997 through 2001
(all figures are rounded to the nearest thousand)

STOCK & MUTUAL INSURERS:

Calendar Year	Taxable Premiums	Percentage Increase of Premiums	Premium Tax
1997	1,951,890,000	4.02%	45,592,000
1998	2,039,990,000	4.51%	47,325,000
1999	2,190,183,000	7.36%	50,423,000
2000	2,456,832,000	12.17% *	56,037,000
2001	2,610,748,000	6.26% *	59,461,000

5 year average: \$2,249,928,600 \$51,767,600

The Idaho Code sections pertaining to premium tax for Stock and Mutual insurers are:
 41-402 through 41-405

*Increase is result of "Blues" reclassifying business for reporting purposes.

HOSPITAL & PROFESSIONAL SERVICE CORPORATIONS:

Calendar Year	Premiums Written	Percentage Increase of Premiums Written	Subscriber Tax
1997	22,540,000	14.49%	29,000
1998	24,265,000	7.65%	31,000
1999	25,873,000	6.63%	33,000
2000	28,531,000	10.27%	34,000
2001	30,133,000	5.61%	41,000

5 year average: \$26,268,400 \$33,600

The Idaho Code section pertaining to premium tax for Hospital and Professional Service Corporations is: 41-3427

*** MANAGED CARE ORGANIZATIONS:**

Calendar Year	Premiums Written	Percentage Increase of Premiums Written	Subscriber/Premium Tax
1997	97,331,000	59.77%	16,000
1998	100,338,000	3.09% *	2,094,000
1999	118,857,000	18.46%	1,422,000
2000	8,942,000	-92.48% **	245,000
2001	3,238,000	-63.79% **	89,000

5 year average: \$65,741,200 \$773,200

The Idaho Code section pertaining to premium tax for Managed Care Organizations is: 41-3922.

*Effective July 1, 1997, Health Maintenance Organizations subscriber tax became Managed Care Organizations paying at premium tax rate.

**Decrease is result of "Blues" reclassifying business for reporting purposes.

Excerpts from 1915-1916 Biennial Report to Gov. M. Alexander by George F. Steele, Insurance Commissioner:

Shortly after assuming the duties of this office we received numerous complaints that Section 73 of our Code was being violated throughout the State. The complaints stated that unauthorized companies were transacting business by mail with the purpose of evading payment of taxes to this State and evading the cost of transacting business through resident agents. By virtue of Section 73 of our Code, and empowered under its provisions to enforce it, the Department early during 1915 proceeded to collect the tax due to the State from parties having insurance contracts with all unauthorized companies attempting to do business in this State. In most cases we found the insured ready and willing to respond with the payment of the required taxes and fees, with the exception of two of the largest lumber corporations in the northern part of the State. Against these, the Department filed complaints for the purpose of securing judgment as provided by Section 73 of the Insurance Code. The judge of the Eighth Judicial District, having given an adverse decision, an appeal has been made to the Supreme Court. The public has been warned that companies who attempt to transact business in defiance of our state laws can not be expected to deal fairly with their policy holders in cases of claims arising under such policies.

Rates and Forms

The Rates and Forms Section is primarily responsible for administering Idaho Code and Rules related to insurance policies, rates and forms. Idaho Code permits a company to file and then use a policy form, but the company must first certify that its forms are in compliance with Idaho Code and are not ambiguous, misleading or deceptive. Pursuant to Section 41-1812, Idaho Code, unless the forms are filed with the Director, they may not be issued to residents of Idaho. Although all major lines of insurance are monitored, the Rates and Forms Section is alert to filings involving private passenger automobile rate changes, bail bonds, certificates of assumption, company mergers, credit life and disability, crop hail rates, consumer credit reporting, health products, long-term care, managed care organizations, Medicare supplements, title, worker's compensation, and riders involving war, military action or terrorism. Additionally, the Rates and Forms Section receives advertising filings for life and health and rate filings for various lines of insurance, including private passenger automobile, homeowners, farm owners, mobile homeowners, personal inland marine, auto, boiler and machinery, burglary and theft, commercial fire and allied lines, fidelity, surety, bond, financial guaranty, personal liability, personal umbrella liability and commercial liability and life and health. Section 41-1405, Idaho Code, states that rates shall not be excessive, inadequate or unfairly discriminatory.

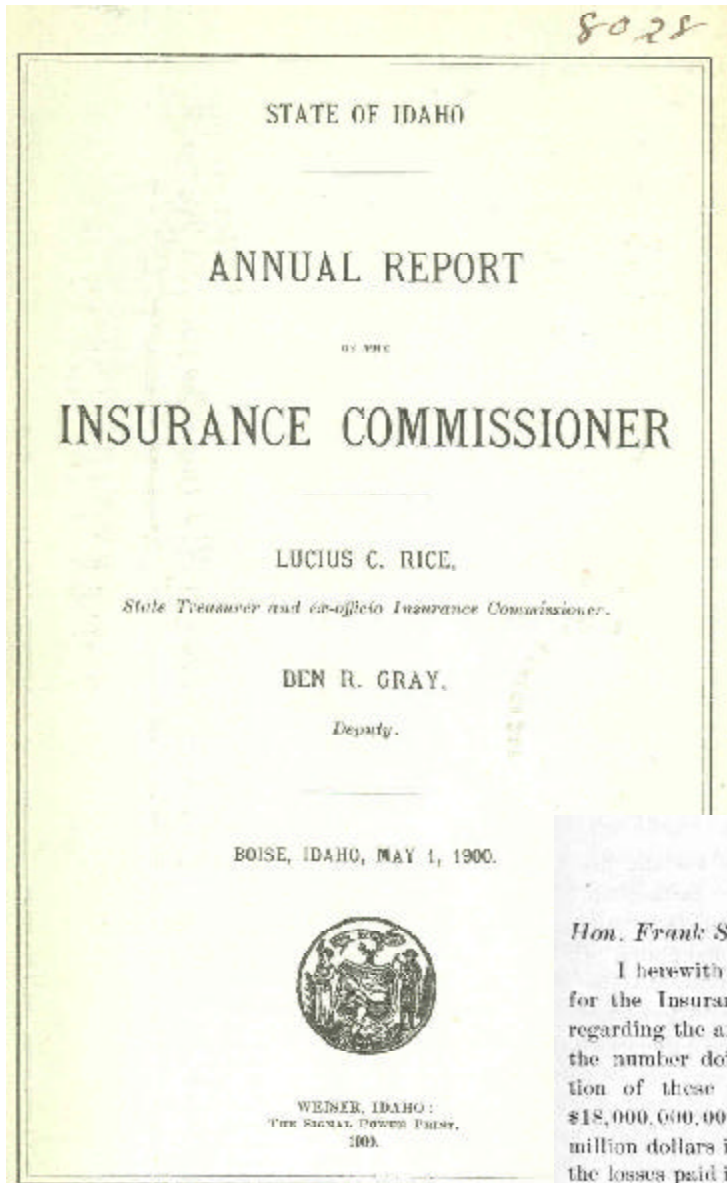

The Department receives policy and rate filings from over 1,500 companies licensed to sell products in Idaho. The following is a count of the 2001 filings by line of business:

Highlights for Year 2001

<u>Type of Filing or Business Line</u>	<u>Forms</u>	<u>Rate</u>

Summary of Annual Statements

First Annual Report of the Idaho
Department of Insurance
May 1, 1900

OFFICE OF THE STATE TREASURER,)
STATE OF IDAHO. }

Hon. Frank Steunenberg, Governor of Idaho:

I herewith submit report of Insurance business done in the State for the Insurance year ending April 30, 1900. Numerous inquiries regarding the amount of business done by insurance companies, and the number doing business in the state, has prompted the compilation of these pages. The following will show that there is over \$18,000,000.00 insurance in force in this state. Nearly one-half million dollars in premiums were taken out of the state last year and the losses paid in the state were a little less than \$200,000.00. Eighty companies and seven hundred and fifty-three agents have been licensed for the year 1900, and a tax amounting to \$5,506.00 has been received, also a list of the insurance and surety companies authorized to transact business within the State of Idaho, May 1, 1900, and statement of the total risks written, premiums received, and losses paid for the year ending December 31, 1899, as shown by the annual statement of fire, fire and marine, liability, life, life and accident, accident and plate glass insurance companies, filed in the office of State Treasurer, pursuant to law; and a statement showing the aggregate insurance business transacted within the State of Idaho from 1899 to 1900, inclusive. Also copy of the Insurance law of Idaho.

LUCIUS C. RICE,
State Treasurer,
BOISE, IDAHO, May 1, 1900.

Excerpts from 1911-1912 Biennial Report to Gov. James Hawley by I.C. Hattabaugh, Insurance Commissioner:

The State should encourage in every legitimate way the entrance of reputable companies and remove every impediment to the transaction of lawful business; and it should enact and enforce laws preventing the admission of companies and societies not of that character. The policy of insurance may be the widow's shield against want; the means of educating and equipping the orphan for the battle of life, or the prop of the many's old age. It may mean the merchant's financial salvation or the artisan's shelter. It may mean the success or disaster, according to the company behind the contract....
